

VDOT's Highway Contractor *Prequalified-Currently Inactive* (PCI) Level

Previously prequalified firms currently approved for VDOT Prequalification are Prequalified-Currently Inactive (PCI). A Prequalified firm with this level of prequalification is in good standing with the Department with regard to safety and it has a demonstrated ability to complete the type(s) of work for which they provide evidence of ability, however the firm has not performed work for the Department in the past five years and thus has no average Contractors Performance Evaluation Score (CPE).

Firms that are Prequalified-Currently Inactive (PCI) can be awarded/have under contract **no more than three (3) projects** at any given time. Each of these contracts will be limited to a maximum contract value of **\$2,000,000** or \$6,000,000 in aggregate. The State Contract Engineer or their designee has the authority to waive this restriction on a project-by-project basis based on the firm's demonstration of evidence of *ability**. Such waiver must be obtained, in writing, by the firm prior to bidding on that project. A firm at this level of prequalification will be assigned a minimum Prequalification Score of 75, provided they have a minimum Safety Index Score (SIS) of 70.

Right to appeal

If your firm is not satisfied with the Prequalification Level assigned to your firm, it should **immediately** contact the Prequalification Office at 804-786-2938. If a firm would like to appeal, "The Prequalification Appeals Process" is located in the "Rules Governing Prequalification Privileges" on our website (see below).

Expiration and renewal

Prequalification privileges are for a limited period of time. The expiration date is posted on your firm's listing on the "*Current Prequalified Highway Contractor's List*" on our webpage. New prequalification forms are due in the Prequalification Office prior to the first day of the expiration month.

By the anniversary of the first day of the expiration month the items listed in the "*Submission Guide*" will need to be submitted. If the firm does not renew at that time and a firm's prequalification has lapsed then the firm must begin their year cycle for prequalification with a submittal of a "*Prequalification Long Form Application*." (C-32)
