The Fiscal Year 2008 budget for the Virginia Department of Transportation (VDOT) identifies the estimated revenues and the distribution of the revenues to the related transportation programs. It reflects the increased revenues provided by Governor Kaine and the 2007 General Assembly. The VDOT Budget for FY 2008 totals \$4,014,203,140, a 5.9% increase over FY 2007.

VDOT's revenues are provided by dedicated state and federal revenue sources. The major state revenues are estimated by the Department of Taxation and are included in the state's official revenue estimate. VDOT continues to estimate federal revenues based upon information received from Federal Highway Administration (FHWA).

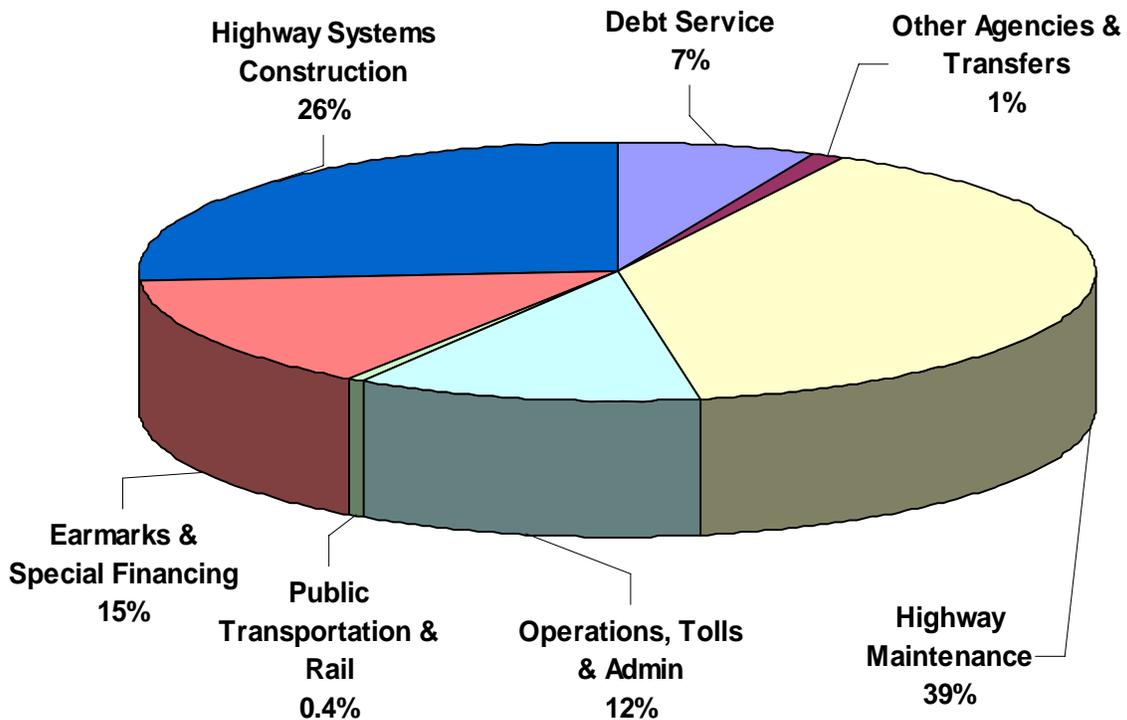

VDOT's FY 2008 Budget is supported by \$2.5 billion of state revenues. This includes \$325 million of one-time funding from the General Fund for specific purposes as enumerated in Chapter 847 of the 2007 Virginia Acts of Assembly, the 2007 Appropriation Act. Federal revenues of \$910 million account for 23% of the funding for this fiscal year.

# Overview

VDOT's revenues provide funding for debt service, maintenance, administration and construction. The following is a summary of the programs by spending category:

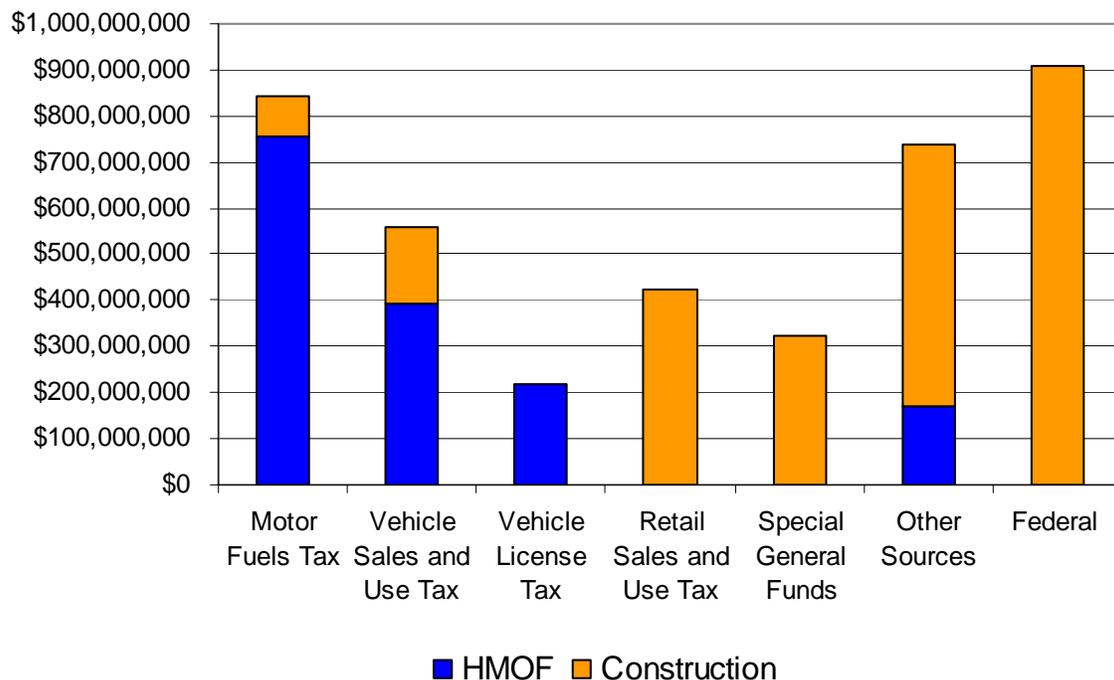

Debt Service	\$263,431,409
Other Agencies & Transfers	50,919,745
Highway Maintenance	1,583,253,995
Operations, Tolls & Admin	470,634,809
Public Transportation & Rail	15,259,133
Earmarks & Special Financing	583,045,421
Highway Systems Construction	1,047,658,628
<b>Total</b>	<b>\$4,014,203,140</b>

# Revenues

VDOT's revenues are specifically designated for transportation. Four primary state tax transportation revenue sources are collected in Virginia: Motor Fuels Tax, Motor Vehicle Sales and Use Tax, Motor Vehicle License Fee, and State Sales and Use Tax. The following table summarizes VDOT's FY 2008 revenues.

Source	HMOF	Construction	TOTAL
Motor Fuels Tax	\$757,600,000	\$85,074,700	\$842,674,700

## HMOF Revenue Sources FY 2008

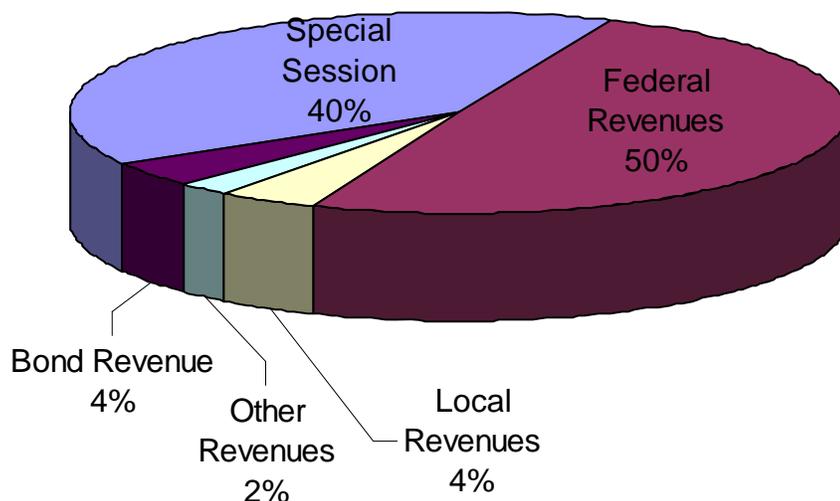

# Transportation Trust Fund - Construction

The Transportation Trust Fund was created by the 1986 Special Session. VDOT manages the 78.7% of the TTF funds dedicated by the Code of Virginia for highway construction. Special Session funds include motor vehicle fuels tax, motor vehicle sales tax, and state retail sales and use tax. The following table identifies the construction fund revenues by type.

Construction Revenue Sources	FY 2007	FY 2008	Difference
Special Session	\$714,897,942	\$727,886,440	\$12,988,498
Federal Revenues	1,159,264,371	909,776,553	(249,487,818)

# Environmental Monitoring and Evaluation (514)

The Environmental Program consists of the following service areas:

Environmental Monitoring and Compliance for Highway Projects (51408) - To provide efforts to evaluate, monitor and maintain the quality of the state's natural resources as part of a balanced consideration of environmental and transportation needs. VDOT's wetland mitigation program is funded in this service area.

Environmental Monitoring Program Management and Direction (51409) - To provide activities related to the management and direction of the program. Adequate and effective management and direction is critical to the success of the program.

<b>ENVIRONMENTAL MONITORING &amp; EVALUATION (5140000)</b>	<b>ALLOCATION 2006-07</b>	<b>RECOMMENDED 2007-08</b>	<b>INCREASE (DECREASE)</b>

# Ground Transportation Planning & Research (602)

## Ground Transportation Planning and Research is comprised of:

Ground Transportation System Planning (60201) - To provide efforts to lead and plan a comprehensive system of ground transportation, including the planning of particular ground transportation projects through surveying, mapping and studies. These studies are the basis for decisions on proposed highway plans, programs and projects, as well as other travel modes and routes throughout Virginia. This includes Land Development activities related to the implementation of Chapter 527.

Ground Transportation System Research (60202) - To provide efforts devoted to the planning and delivery of a comprehensive ground transportation research, development, consulting and technology transfer program covering the areas of transportation system operations, maintenance, structural design and construction, materials and specifications, safety, environmental stewardship, finance and policy.

Ground Transportation Program Management and Direction (60204) - To provide activities related to the management and direction of the program. Adequate and effective management and direction is critical to the success of the program.

The FY 2008 program reflects the increases provided by HB 3202, The changes from 2007 to 2008 also reflect nearly \$150 million of one-time SAFETEA-LU earmarks in FY 2007. The following pages detail each construction service area.

# Highway System Acquisition and Construction (603)

## Dedicated and Statewide Construction (60302)

The purpose of the Dedicated and Statewide Construction service area is to design and prepare plans, acquire needed land and construct roads and bridges or support transit or operational activities across the state that are not dedicated to a specific highway system. This includes statewide programs such as the Revenue Sharing and the Safety programs. Funding for the federal Congestion Mitigation and Air Quality Improvement (CMAQ) and Regional Surface Transportation programs which have yet to be distributed by the respective Metropolitan Planning Organizations are included in this service area and will be transferred when identified. It also includes non-toll-related bond-funded construction.

# Highway System Acquisition and Construction (603)

## Interstate Construction (60303)

The purpose of the interstate construction service area is to design and prepare plans, acquire needed land and construct roads and bridges on the interstate highway system. The interstate program is federally funded, with state funds provided to match the federal funds.

<b>INTERSTATE CONSTRUCTION (60303)</b>	<b>ALLOCATION 2006-07</b>	<b>RECOMMENDED 2007-08</b>	<b>INCREASE (DECREASE)</b>

# Highway System Acquisition and Construction (603)

## Primary Construction (60304)

The primary construction system is made up of roads that connect cities and towns with each other and with interstates. Primary roads serve the state in the same manner as the Interstate system serves the nation. After maintenance and administrative and general expenses have been allocated, the primary system is allocated 40% of the remaining funds.

Allocations are divided among the districts based upon 3 factors:

70% - Ratio of district primary system **vehicle miles** to statewide primary system vehicle miles.

25% - Ratio of district primary system **lane miles** to statewide primary system lane miles.

5% - Primary road needs factor.

Included in the Other item are amounts for Appalachian Development, Federal Bridge Replacement Funds, Equity Bonus, STP Regional, CMAQ, and Non-Interstate NHS funds.

# Highway System Acquisition and Construction (603)

## Secondary Construction (60306)

The purpose of the secondary construction service area is to design and prepare plans, acquire needed land and construct roads and bridges on the secondary highway system. After maintenance and administrative and general expenses have been allocated, the secondary system is allocated 30% of the remaining funds.

Allocations are divided among counties based upon two factors:

80% - Ratio of county population to total population of all counties

20% - Ratio of county land area to the total of all county land area

## Urban Construction (60307)

The purpose of the urban construction service area is to design and prepare plans, acquire needed land and construct roads and bridges on the urban highway system. After maintenance and administrative and general expenses have been allocated, the urban system is allocated 30% of the remaining funds. Allocations are made to cities and towns based upon the ratio of city/town population to the total populations of all cities and towns.

# Highway System Maintenance (604)

The maintenance program consists of:

**Interstate Maintenance (60401)** - To preserve the public's investment through the delivery of an effective and efficient statewide maintenance program to protect and enhance the transportation infrastructure and the safety of the traveling public.

**Primary Maintenance (60402)** - To preserve the public's investment through the delivery of an effective and efficient statewide maintenance program to protect and enhance the transportation infrastructure and the safety of the traveling public.

**Secondary Maintenance (60403)** - To preserve the public's investment through the delivery of an effective and efficient statewide maintenance program to protect and enhance the transportation infrastructure and the safety of the traveling public.

**Transportation Operations Services (60404)** - To improve mobility, safety, travel time reliability and security on the transportation system through the deployment of a variety of operational strategies including regional smart traffic centers, emergency services, traveler services, congestion management and traffic signalization optimization.

**Highway Maintenance Program Management and Direction (60405)** - To provide activities related to the management and direction of the program. Adequate and effective management and direction is critical to the success of the program.

# Commonwealth Toll Facilities (606)

## Toll Facilities consists of:

**Toll Facility Acquisition and Construction (60601)** - To provide efforts to acquire, construct, and renovate ground transportation toll facilities. To construct needed highway facilities earlier than would be possible with traditional funding sources and without general tax increases, toll facilities have, when practical, been funded through the issuance of bonds. Revenues collected from toll facilities contribute to Virginia's safe and effective transportation system. Currently, there are nine toll facilities in Virginia: George P. Coleman Toll Facility, Jordan Bridge (Southern Branch of Elizabeth River), Dulles Toll Road, Dulles Greenway, Chesapeake Bay Bridge-Tunnel, Chesapeake Expressway, Downtown Expressway, Powhite Parkway, and Pocahontas Parkway. Only three of these facilities are owned and operated by VDOT: Powhite Parkway Extension Toll Road in Chesterfield County, Dulles Toll Road in Northern Virginia, and George P. Coleman Bridge in Gloucester County. The remaining five toll facilities are privately owned.

**Toll Facility Debt Service (60602)** - To provide for the debt service requirements of the debt-financed toll facilities. The bond indentures for the toll facilities require the Commonwealth Transportation Board (CTB) to set toll rates for all classes of vehicles which will provide sufficient net revenues to meet the facility's obligations. Toll roads are typically constructed with debt financing and the subsequent toll collection revenues are used for debt service payments. The three state-owned facilities collecting tolls to pay debt service are: Dulles Toll Road in Northern Virginia, the Powhite Parkway Extension in Richmond, and the George P. Coleman Bridge located between Gloucester and York counties.

**Toll Facility Maintenance and Operation (60603)** - To provide for the operational costs of the three toll facilities operated by VDOT: the George P. Coleman Bridge, Dulles Toll Road, and the Powhite Parkway Extension Toll Road. All operating costs associated with that facility are to be paid out of the revenues generated by that facility. Customer service and toll collection are toll facilities' main operations. Details by facility are provided in the appendix.

**Toll Facilities Revolving Fund (60604)** - To provide a method to finance and/or refinance existing and potential toll facilities. Interest earnings on the Construction Fund and Highway Maintenance and Operating Fund are deposited in this account. Funds allocated from the Toll Facilities Revolving Account intended for planned or operating toll facilities are considered advance funding in which the Toll Facilities Revolving Account must be reimbursed.

# Financial Assistance to Localities (607)

Financial Assistance to Localities consists of:

**Financial Assistance for City Road Maintenance (60701)** - To provide monetary support to localities for capital improvements and/or maintenance of roads and/or transportation facilities. Direct financial assistance is provided to 81 cities and towns to maintain, operate, and improve their arterial and collector roads and local streets. The level of assistance to the respective local governments for maintenance expenditures is based on the number of qualifying lane-miles in each locality and available funding.

**Financial Assistance for County Road Maintenance (60702)** - Provide monetary support in lieu of maintenance services to localities for road maintenance and upkeep where such localities have elected to maintain their own highway systems. Currently, Henrico and Arlington maintain their own roads.

**Financial Assistance for Planning, Access Roads, and Special Projects (60704)** - To manage and distribute funding for recreational and industrial access programs and the Metropolitan Planning federal grant program. The Recreational Access Program provides funding for roads and bikeways to new or expanding non-federal, non-commercial public parks and historic sites. Access roads for qualifying airports and industrial sites, and access tracks for qualified rail users are provided through VDOT's Industrial, Airport, and Rail Access Fund. The Metropolitan Planning Grants are federal funds available to support activities undertaken by Metropolitan Planning Organizations (MPOs) to develop long-range transportation plans and transportation improvement programs.

# Non-Toll Supported Transportation Debt Service (612)

Non-Toll Supported Transportation Debt Service consists of:

**Highway Transportation Improvement District Debt Service (61201)** - To provide for the debt service requirements of the bonds sold to finance transportation improvements in special tax districts. There is currently only one such district, the State Route 28 Highway Transportation Improvement District in Fairfax and Loudoun counties.

**Designated Highway Corridor Debt Service (61202)** - To provide for the debt service requirements of the bonds sold to finance transportation improvements in special designated highway corridors. The Commonwealth Transportation Board has issued transportation revenue bonds for the U.S. Route 58 Corridor Development Program, the City of Chesapeake Oak Grove Connector Project, and the Northern Virginia Transportation District (NVTD) Program.

**Federal Highway Revenue Anticipation Notes Debt Service (61203)** - To provide for the debt service requirements of the Federal Highway Reimbursement Anticipation Notes (FRANs) sold to finance transportation improvements in the Commonwealth. Also included is the projected debt service needs for the Commonwealth of Virginia Capital Projects Bonds authorized by HB 3202.

# Administrative & Support Services (699)

Administrative and Support Services is comprised of:

General Management and Direction (69901) - To provide for the general administrative management, direction and support activities of VDOT. This includes, but is not limited to, accounting services, human resources, succession planning, health and safety services, procurement, facilities management, management studies, policy analysis, process improvements, performance management, internal auditing, innovative financing, financial planning services and oversight of compensation programs for all VDOT employees. Also included in this service area is a \$21.7 million Business Plan reserve, provided from prior year balances.

Information Technology Services (69902) - To provide for administrative management, direction and infrastructure support for tasks including, but not limited to, automated data processing services for citizens and visitors to the Commonwealth, Virginia's legislative bodies, other state and local government agencies as well as its own Department of Transportation employees.

Facilities and Grounds Services (69915) - To provide physical plant maintenance needs to VDOT facilities. This maintenance work is considered ordinary or routine nature and includes the cost of labor, equipment and materials to make minor repairs to utilities such as plumbing, heating, and electrical; and the maintenance of driveways, parking lots, and yards. The service area also funds small renovation/alteration projects that cost no more than \$10,000.

Employee Training and Development (69924) - To provide Employee Training and Development services to VDOT. This includes traditional classroom training and related development activities and tuition reimbursement. Other activities included are Learning Management System (LMS) administration; self-directed learning; supervisory, management, and executive leadership programs; engineering development programs; and scholar and intern programs.

# VDOT Capital Outlay (998)

Capital Outlay funding is provided to support the agency's building and renovation needs as well as Maintenance Reserve needs. This funding may be used for acquisition of real property (including buildings or plant) or machinery or equipment, new construction, and improvements related to state-owned real property, buildings, plant, machinery or equipment (including plans therefore), as defined in the *Code of Virginia*. All capital outlay projects must be approved by the Governor and General Assembly via the Six-Year Capital Improvement Plan and the Biennial Budget. VDOT receives direction from the Department of Planning and Budget and the Department of General Services on the development and execution of the Capital Outlay Program.
